DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 12 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicants admitted prior art (hereinafter AAPA) in view of U.S. patent 6,493,552 to Hicks.

With regard to claims 12 and 16, AAPA teaches a CDMA communication system wherein mobile units despread signals (p1, 2nd paragraph) sent to them from a base station, and also acquire pilot signals (page 2, lines 1+). AAPA, beginning on page 3, lines 1+, also discusses the problem associated with having registration done repeatedly putting a drain on the battery and increasing network traffic. AAPA does not, however, teach turning off the receiver after repeated registration attempts. The process of turning off a receiver after a repeated number of attempts is taught in Hicks. See col 2 lines 30+, col 5, lines 24 to 64. It is noted that Hicks importantly also teaches searching for a new control channel after timing out.

It would have been obvious to one of ordinary skill in the art at the time of the invention to have turned off the receiver of AAPA after repeated registration attempts, in light of the teachings of Hicks, in order to conserve battery power, and to further prevent unnecessary network traffic (by switching to the new channel instead of fruitlessly attempting to connect to the old channel after timeout).

7. Claims 13 – 14 and 17 – 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicants admitted prior art (AAPA) in view of U.S. patent 6,493,552 to Hicks as applied above to claims 12 and 16, and further in view of U.S. patent 5,574,973 to Borth et al.

AAPA/Hicks teach the invention as described above, but do not teach performing registration when the signal level is higher or equal to a threshold. Registration after signal

quality determination is taught in Borth et al. See col 6 lines 30 – 50, and note that the distinction between higher/lower than the threshold would be obvious in view of the fact that the threshold is lowered in Hicks, as discussed in col 6 lines 53+.

8. Claims 1 – 11 are currently allowable over the prior art of record.

Response to Arguments

9. Applicants remarks are moot in view of the new grounds of rejection.
